

DIY STENCIL WELCOME MAT

Lucy Loves DIY January 2017 Project

Supplies:

- Stencils (provided to you)
 - Printer
 - Scissors
 - Acrylic Craft Paint
- Crafting Sponges or Brushes
 - Masking Tape
- Plain Welcome Mat

Print out the stencils provided to you. Set your images to print in landscape (horizontal) format and to take up the full page width. Cut them out following the instructions in the video.

Use black paint for the peace sign and your choice of dog paw or silhouette stencil. Use red glitter paint for the heart in the center.

You can customize this project to fit your personal dog mom style by using different color paints or taking a chance and free hand painting your dog's name in the 3rd spot!

Allow to dry and place in front of your door in a spot protected from the elements.
